

Bloomfield Township Clerk's Office

2022 Facts & Figures

Ballots Cast by Type

The Clerk's Office is committed to continuous improvement. In 2022, special focus was placed upon voter access and absentee ballot security. We installed the first ever drive-up elections dropbox for Township absentee voters. In November, 2130 residents returned their absentee ballot via this dropbox. We increased control, security, and chain of custody procedures throughout the absentee ballot process and adopted additional reviews to maintain an accurate list of registered voters.

The Clerk's Office has also initiated a feedback survey. Our expectation is that we provide you with excellent services 100% of the time. We invite you to complete our survey using the QR Code below.
