

## Secondary Water Meter Ordinance Compliance Statement

Property Address: \_\_\_\_\_

We, the undersigned below, hereby have read and understand the Ordinance as noted.

### Sec. 38-72. - Secondary and seasonal water meters.

(a) At the option and expense of a property owner, an additional water meter, referred to as a secondary water meter, may be installed. The secondary water meter shall allow for the metering of water that is directed exclusively to a sprinkler system or outside spigot or connection such as, but not limited to, a swimming pool, which water would not enter a sanitary sewer system and will not be applied to the calculation of the sewage disposal bill for the property. The installation, use and other provisions of township ordinances, which apply to a single water meter, shall also apply to the secondary water meter. The property owner must comply with all department of public works requirements and pay all associated costs for the installation of a secondary meter.

(b) A seasonal water meter shall be used in the same manner as a secondary water meter, whereas a seasonal water meter shall be a single meter served by a single water connection and used only during the outdoor watering use season as determined by the department of public works. The property owner shall be responsible for access and location as described in this division. The department of public works may remove and reinstall the seasonal water meter for a service fee as determined by the director of the department of public works. The property owner must comply with all department of public works requirements and pay all associated costs for the installation of the seasonal water meter.

(Ord. No. 542, § 1.02, 7-14-2003)

Based on the Ordinance requirements, field verification of the water line to be dedicated for irrigation, etc., will be required by the Township at time of inspection.

Signatures of both the homeowner and the contractor are required.
